FAQs

Q. How do I bind coverage?

A. Bluewater does not extend binding authority to agents, but we can accommodate for immediate coverage with a completed application and payment. Simply contact us.

Q. Do you offer coverage options other than blanket?

A. Yes, we can schedule any items of value within a collection such as a \$50,000 art piece or a \$15,000 Double Eagle Gold Coin.

Q. How do we know what an item is worth?

A. We trust our clients know what their items are worth. However, thanks to our extensive resources, we can help in determining a value.

Q. Do you require an itemized list?

A. The majority of collectors will have an inventory list which can be emailed to our team, but we do not require a list to quote or issue coverage.

Q. How can I identify a quality prospect for your fine arts and luxury collectibles program?

A. A typical collector will have a history of collecting, accumulated a significant quantity or a small quantity of high value items along with zero claims on their collection within the past 3 years. The first step is to review a prospect's homeowner's policy and ask if they have item(s) of value.

Q. How can I submit a competitor declaration page to compare features and premium?

A. You can email the competitor declaration page to agentcare@bluewater-ins.com. Please allow 24hrs for review and processing.
